GRAVE ROBBING.

Ohio Leads New York--Four Corpses Stolen at Once.

By Telegraph to the News.

CINCINNATI, Nov. 14.—At Zanesville, Ohio, at four o'clock this morning, the policemen on the bridge had his suspicions aroused by the movements of a party in a wagon and when they reached the bridge he ordered them to halt. The driver whipped up his horse into a gallop and escaped. The policeman procured assistance and followed them fourteen miles before he was able to catch up with them. Upon attempting to arrest them the whole party jumped from the wagon and escaped to the woods. The wagon was found to contain the bodies of four prominent citizens who had been buried in Wood Lawn cemetery since Monday.

From China and Japan.

By Telegraph to the News.

SAN FRANCISCO, Nov. 14.—The City of Toko, from Hong Kong, has arrived. The foreign residents of Hong Kong had a public meeting in October, to consider the state of life and property in the colony. The Chinese residents made an unsuccessful attempt to pack the meeting. A resolution was adopted reciting the insecurity to life and property, which in the opinion of the meeting was mainly because of undue leniency to the criminal classes. The resolutions favor a return to flogging and other severe punishments.

The court-martial in the recent military meeting at Toko sentenced 53 soldiers to death, and many others to imprisonment. The condemned men were shot in batches of fifteen, on the morning following their sentence.

Asiatic cholera prevails at Nagasaki, and has appeared at Yokohama.

A Japanese Cabinet crises is imminent.

The Legality of Polygamy.

By Telegraph to the News.

WASHINGTON, Nov. 14.—The first of a series of cases involving the right of Mormans to contract polygamic marriages, comes up in the United States Supreme court, in the shape of an appeal from the Supreme court of Utah. The case is of general interest, because it presents to this court for the first time the question of the constitutional right of Congress to prohibit polygamy when it assumes the guise of religious duty, and is held as an article of faith Counsel for the prisoner contend that Congress is restrained from such prohibition by the first amendment to the constitution of the U S., which provides for religious freedom. Counsel for U. S argue, that this rigid interpretation of the constitution would prevent Congress from punishing any crime in territories which might justify itself by an appeal to religious conviction and so lead to remediless disorder. The decision is awaited with great interest.

Where are the Remains?

By Telegraph to the News.

NEW YORK, Nov. 14.—It is reported that the body of A. T. Stewart was taken to Canada and is now concealed there. The thieves, who demand a ransom of one hundred thousand dollars for the remains, have placed the matter in the hands of a Moutreal lawer and are negotiating through him. As there is no treaty governing such cases of this kind it will be impossible to arrest the ghouls. Another report says the body is hidden at or near Shamong, Burlington county, New Jersey, forty miles south east of Camden, and that the thieves can be arrested at any moment.

Lorne at Liverpool.

By Cable to the News.

LIVERPOOL, Nov. 14.—The Marquis and Marchioness of Lorne, the Duke of Connaught, Prince Leopold and their suites arrived at 6 o'clock this morning. At 10 o'clock, under military escort, the Royal party proceeded to the town Hall, where they were received by the Mayor. Addresses from the town council and Chamber of Commerce were read to the Marquis, who replied to both. At the close of the ceremonies they proceeded to the landing stage and embarked on a tender for the steamship Sarmatian. After a warm leave-taking the Royal Princes returned to the shore and the steamer proceeded to sea.

The Dawn of Peace.

By Cable to the News.

LONDON, Nov. 14,—A dispatch to the Times from Berlin says the attitude of the exiled German Bishops, as indicated by their memorial to the Pope, expressing the wish that an equitable arrangement may be reached with Germany, is regarded in Berlin as a gratifying earnest of a possible reconciliation. A dispatch from Rome to the Standard says the Vatican has decided on a complete separation from the ultramontane party in the German Reichstag.

A Kaffir Outbreak.

By Cable to the News.

LONDON, Nov. 14.—It is reported that intelligence has been received at the Colonial office that a further outbreak by the Kaffirs is imminent. The rebel tribes are massed in great strength under Castewago, King of the Zulus. The British force on the frontier is in danger of being overwhelmed unless promptly reinforced.

It is reported that he has discontinued the experiments with the electric light, in consequence of ill health.

Settling the Award.

By Telegraph to the News.

NEW YORK, Nov. 14.—The U. S. government has, through a banking house in this city, completed the purchase of sterling exchange to the amount of about £1,100,000 to meet $5,500,000 required by the Halifax award to be paid to the British government at London, on the 23rd inst., and the agents of the U. S. Treasury department will make the transfer at London on that date.

Italy's Redemption.

By Cable to the News.

LONDON, Nov. 14.—It appears that the Convention with France, whereby Italy agrees to withdraw her fractional silver, really postpones to 1884, what Italy had already undertaken to do in 1882, and that the withdrawn currency would be redeemed in silver five franc pieces, not in gold.

The Latest from the Capitol.

The Height of Impudence.

Correspondence of the News.

RALEIGH, N. C. Nov. 14.—Among the many communications favoring and endorsing Judge Merrimon which have from to time to time appeared in the columns of your city cotemporary the late contribution of "Wake" is not the least remarkable.

After it was published that the Democratic Executive Committee requested that at the "cigar box" election no vote should be cast naming any candidate, the friends of Governor Vance and party organization considered that this was an abandonment of the primary election and refrained from voting. But at some few precincts some of the friends of Judge Merrimon had cigar boxes put up and in these in some places, if not all, negroes, Radicals, carpet-baggers and scalawags voted just as much as they pleased, if not indeed, more than anybody else. "Wake" could not have been ignorant of that fact and cannot plead that he did not know that they were votes merely loaned for the occasion. Yet he claims this factitious result as an indication of Wake county's position on the great questions of upholding party organization.

Again this correspondent says that he would like to know if Gov. Vance will abide the choice of the party on the Senatorial question. Gov. Vance's whole life is an answer to the question. If that were not enough, the News has long since stated editorially and by authority of Gov. Vance that he would abide the caucus under all circumstances. Judge Merrimon's course six years ago and his letter of last June rendered it proper that he should be asked this question. The NEWS has again and again asked him the question. Nine-tenths of the democratic press of the State probably, have done the same, and yet the oracle is dumb.

The letter of Wake was marked by one good feature. It did not end as another communication to the Raleigh Observer recently ended, "this communication has been seen and is approved by Senator Merrimon." The writer can not for a moment believe that Judge Merrimon would have tolerated for a moment the claim made by "Wake," that the pitiful "cigar-box" ballots, obtained in the manner they were, were any indication whatever of the sentiments of the *democracy* of Wake county. Judge Merrimon is too correct a man himself to countenance the claim that "Wake" has made for him.

DEMOCRAT.

Marriage in Durham.

Correspondence of the News.

Two marriages occurred in our little city yesterday evening (Nov. 13th). The first was that of Mr. H. L Jordan, of Granville, to Miss Annie Inge Wynne, which took place at the Methodist church; at 4 p. m., Rev. H. L. Wood, officiating. The second occurred at the residence of D. W. Whitaker, Esq., at 7 p. m., the contracting parties being Mr. Charles Howerton, of Durham, and Mrs. Sallie Ducy, late of Petersburg, Va. Rev. C. Durham, performed the ceremony.

To both couples we extend our best wishes for future happiness and prosperity. May the evening of their wedded lives be as calm and serene as the morning is bright and hopeful.

Cheap Production.

N. Y. Tribune.

The ability to produce cheaply will alone save from ultimate loss the capital that has been unwisely invested in this country, in factories, furnaces and mines. Another period of inflated prices would undoubtedly reopen our markets to English competition, and every yard of cloth that is imported, every ton of Scotch iron and every English rail used in this country, reduces the demand for the products of American industry. If we can keep foreign nations which have goods to sell out of our own markets, and especially if we can sell some of our surplus manufactured articles, as well as our grain and provisions, to England and England's customers, idle mills will start up, flooded mines will be pumped out, the fires will be rekindled on furnace hearths, and prosperity will return.

Resources of the Territories.

The Interior Department is constantly receiving letters in great numbers asking for information about the natural resources of the Territories, the information being sought for by those who wish to emigrate to and become settlers in the new countries. To meet what is found to be a general want, the department has called upon the Governors of all the Territories for full information with regard to agricultural and mineral resources, as well as all information of interest concerning the climatic conditions of their respective Territories.

Judge Carrett, of New York, has refused a mandamus to the comptroller to pay another million towards the completion of the Brooklyn bridge, on the ground that the eight millions voted by Brooklyn and New York has already been expended.

THE CHARLOTTE FAIR.

Creditable Exhibition--A Look at the Departments.

Charlotte Observer, 14th.

In accordance with the anticipation of Tuesday night, the crowd was largely increased and the attendance on the Fair grounds fully met expectations. Many new entries were also made and the exhibits in nearly all the departments were greatly improved by the additions. A stroll through the buildings shows them to be fast filling. The ladies' department embraces innumerable articles of all description of fancy work from a bed-quilt to a baby doll dress. It is a noticeable fact that while this department is not as full as it has been, nearly all possess merit. Another choice exhibition is that of Capt. Nat. Atkinson, the fruit grower. Captain Atkinson's apples are known throughout the United States. They took the premium at the Centennial exposition and at the National Fruit Fair in Baltimore last year. Capt. Atkinson has two hundred and fifty bushels with him, and there is not an inferior apple in the lot. He has astonished the farmers of Mecklenburg and, in fact, all who have seen them, for there are few persons who believed that such fruit could be raised in North Carolina.

The display of cereals is not as large as it might be, but is pronounced of a very excellent character.

The next most conspicuous articles in the vegetable line are the sweet potatoes. About thirty or forty lots are exhibited, and some of the yam variety are of mammoth size. Irish potatoes are very little behind the sweet, in quality, though the quantity is nothing like so large.

There are beets, carrots, pumpkins, gourds and turnips as fine as were ever shown here.

The exhibits in the mineral department occupy a portion of the left wing. The exhibitors are: Prof. Geo. B. Hanna, Maj. W. W. Flemming and Dr. C. L. Hunter, all of whom display some of the choicest specimens from their cabinets. This department was never so well represented before. Maj Flemming also shows specimens of woods from Western North Carolina.

An interesting feature of the lower floor of the main building is a loom from Tate factory, which was in operation during the day, being run by an engine on the outside.

The exhibits in the art gallery are small, but some of them have been much admired.

Owing to a lack of sufficient accommodation, much of the stock, especially horses and cows from the county, will be in to day.

At noon, the orator of the occasion, Gen. J. M Leach, was introduced to the audience by Hon. Walter L Steele, and began, without preliminaries, such a speech as only Leach can make. If the speaker is anything he is original, and no one who has ever heard him can refuse to listen. He held a large and intelligent body of farmers spell-bound for an hour, talking about the dignity of labor, and the climate and resources of North Carolina.

Among the gentlemen in attendance on the Fair are: Adjutant General Jones, Col L L. Polk, Commissioner of Agriculture of the State, Col. T. C. Fuller and Col. A. B. Andrews, of Raleigh; Capt. J R. Thigpen and Mr. W. S. Battle, of Edgecombe.

Cumberland Fair.

Fayetteville Gazette, 14th.

Tuesday and yesterday the attendance on the grounds amounted to but very little; indeed, the first two days of the Fair have always been devoted almost exclusively to the entry of articles, and it is never possible to judge of the merit of the exhibition until Thursday afternoon, as a large number of entries in all departments are made on the morning of that day. Up to 2 o'clock p. m, yesterday the list of entries stood as follows:

Agricultural Department, 157; Live Stock—cattle, hogs, &c., 33; horses and mules, 15; poultry, 28; Mechanical Department, 80; food, condiments, &c., 210; fruits and vegetables, 23; Floral Hall, 300.

In Farmer's Hall the display is very fine indeed—far superior to the State Fair (as we heard several farmers who were present say); the exhibit of potatoes, of both kinds, is magnificent, both as to size and the yield to the acre; vegetables make a very good showing; the specimens of wheat and small grain generally far surpass anything of the kind ever seen here before—a healthful indication that the farmers of this section are wisely turning their attention to this branch of farming. A new feature in the mechanical department is a very fine display of furniture turned out by the furniture factory of Messrs. Roberts & McLauchlin, in this town. The display of N. C. hams and bacon is superb.

Take it all in all, this year's exhibition promises to be a grand success, and emphatically a *farmer's* fair, what all agricultural fairs ought to be.

A very attractive feature of to-morrow's exhibition will be the glass ball shooting. The prize to be competed for is a fine double breech-loading gun. The gaieties of Fair week end on Friday night with the grand annual ball.

British Distrust.

N. Y. Tribune.

British distrust of the Ameer seems to be as incurable as that in regard to Russia. It is announced from India that the Ameer's reply is expected to be either hostile or ambiguous. If it is hostile, of course he is to get no quarter but if he simply proposes to discuss the questions at issue further, it will be assumed that he is trying, at the instance of Russia, to gain time. All of which is consistent with the aggressive course the Indian Viceroy has pursued.

Immense Sales of Government Bonds.

It is reported by dealers in United States securities that since the results of the election became known, the demand for Government bonds of all classes has greatly increased, purchasers declaring that the defeat of the Greenback movement has assured the honest payment of Government securities according to contract. The First National Bank of New York alone has done a business in United States bonds since Wednesday last of over $9,000,000, savings banks and insurance companies being large purchasers.

It is a general belief that there is no remedy for Consumption, and possibly, in some cases the assertion may be correct. We know, however, of many cures made by Dr. Bull's Cough Syrup and will guarantee positive relief to the sufferer in every instance.

PERSON COUNTY.

ROXBORO, Nov. 13th.

Correspondence of the News.

Your correspondent has noticed that some people are clamoring against the clerks of the Superior court; they want their fees still reduced. I suppose they want them brought down so as to make their income about equal to that of a common laborer, and far less than that of a respectable mechanic. Even at the present rates, a good mechanic can make more money than at least one-third of the clerks in the State. The fees are now about as low as they they ever were, with a large amount of business to do that the law makes no provision for any pay. For example: Clerks, as Judges of Probate, often have long and tedious causes to hear and determine—sitting from day to day hearing testimony and listening to arguments of counsel, and often hunting up and examining authorities, weighing testimony, adjusting equities, and applying the law; and when they get to the end of all this labor they are entitled to 50 cents for entering up judgment. For the same labor, any Judge would allow any ordinary lawyer or good accountant $50. Because some clerks, in large counties, make some money, I suppose the clerks in small counties are to starve. But who pays the clerks? Certainly not the people generally, but those who happen to have business in court. Reduce the fees, and the income of the office in small counties would be so small that competent men could not be obtained to fill the office. Constituted as our courts now are, every clerk of the Superior court ought to be a good lawyer, for he is really a judge in equity. But if the proposition of reduction should be carried into effect, the office would necessarily be filled in many counties by men almost entirely incompetent for the position. If there is any class of officers in the State who are entitled to good pay, it is the clerks of the Superior courts, for they already have more business to do for which they get no pay, than any other class. Sometimes a clerk spends nearly all day and night at work on official duties. But for the sake of humanity, it is to be hoped that the legislature will entertain no proposition looking to the reduction of clerks' fees. One trouble that we labor under now-a-days is, that almost every body who has acquired nough information to write a letter for the public press, thinks that he is duly qualified for all the responsibilities of a legislator, but the people not having taken exactly that view of the case, he thinks the best road to popular favor is to slash away upon public officers, and raise a hue and cry against them on the score of their fees. What is needed much more than a reduction of fees, is a

REVISION OF OUR STATUTES.

Battles' Revisal has been so cut to pieces by amendments, that it is uncertain, when you open the book and read a section, whether you are reading the law or not. But that would cost money, and in the estimation of such philanthropists as want clerks to work for nothing, of course it won't do to undertake any thing of the kind. It ought to be done by some lawyer who is familiar with our statutes, but such men can't be hired at 50 cents a day, and it won't do to pay any thing like such a price as a professional man would require. So, I don't know how the case is to be managed, unless some man be employed to do the work who would like to be Judge of Probate (don't that sound big?) in some of our small counties, with the fees reduced! Wouldn't that be nice!

But I have written too much. So good night.

The Greenback-Labor Party.

The National Laber Greenback party has determined to call together its National Committee at Washington, November 30, to take order for the future. It is not probable that any further attempt will be made to perpetuate the orgaization with a view to the control of national politics, but in States where the vote polled is sufficiently strong to exceed the majority of dominant party there is an excellent opportunity for trading. This will be made the most of. It is thought that the pickings and stealings that may be gathered together by smart manipulation of this kind will not be inconsiderable.

Extravagant Purchases.

I have recently heard of two very extravagant purchases that were made by American ladies in Paris this season. One article was the costliest braid or "switch" of hair that ever was made in Paris. It was composed of hair a yard and quarter in length, snow white, and exceedingly soft and glossy. Its price was $500. Another was a fan that was recently gotten up by one of the leading fan makers of Paris for the wife of a New York millionaire. The leaf was painted by Edward de Beaumont, a Parisian artist of high repute, and cost $800. The mounting was in ivory, richly carved from special designs, and with the owner's monogram in diamonds set on a medallion-shaped space on one of the outer sticks. The ends of the rivet that held the sticks together were also diamonds. The price of the entire fan when completed amounted to $1,400.

Hard on Se Duc.

Phil. Times.

If it is very home-like to read that Mrs. Hayes has had the White House cellar fitted up with potato-bins, shelves for pumpkins and squashes and other products of the farm likely to be needed to refresh the administration during the winter. It is a little remarkable, however, after a year or more of Commissioner Le Duc in the Agricultural Bureau, that squashes and pumpkins and potatoes are the only things that the excellent mistress of the White House has to put away in the cellar. An expectant might reasonably want to know what has become of all the bamboo and hon-bons and other things which Le Duc had been raising right along and which no good housekeeper would fail to have in the cellar when winter sets in. If pumpkins and potatoes are all the White House needs it seems as though we could get along with a less complicated Commissioner of Agriculture.

Our Precious Metals.

Director of the Mint Lindeman in his annual report estimates that during the last fiscal year there was produced from American mints $47,236,107 in gold $46,726,314 silver. He estimates that about three million dollars worth of the metals were used in the arts and manufactures and about $8,000,000 exported. He estimates the whole stock of gold and silver bullion in the country at about $332,448,000.

It is stated unofficially that after the first of January next, as an aid to the resumption of specie payment, it is very likely that the Treasury Department will send to parties desiring it, the standard silver dollar in quantities of $1,000 and upward free of transportation, in change for like sums of greenbacks deposited with depositary banks.

America Feeding England.

N. Y. Tribune.

England's dependence upon foreign fields for bread supplies is a source of increasing anxiety in that "tight little Island." For several years the limit of 100,000,000 bushels has been passed, and last year the deficit was greater than ever before; but the present year (in the nine months already past) has seen an advance upon the record of 1877. Already, thus early the equivalent of 86,000,000 bushels has been received. It is a matter of pride that this country is still able to retain the lead in furnishing the needed supply, and even attain unprecedented prominence, not only equalling the united contributions of all other countries, but sending 60 1-2 per cent of all the wheat imported, and about 58 per cent of the wheat and flour together, for the first nine months of the present year.

Burmese Food.

Frazer's Magazine.

The Burmese have a remarkable relish for the most strongly-flavored food. Living as they do either by the sea or on the banks of rivers and creeks, it is natural that fish should form one of the commonest ingredients of the foor of the people; and, were they content with the fish freely caught from the river or sea, there would be no matter for remark. This most unsavory food, huge mounds of which are piled up in every market, and whole boat-loads of which are carried by river, poisoning the very air where the boats are moored, consists of the fish which has first been allowed a decay, and is then in some way pickled and pounded into a sort of paste. It is called napee, and, as the English dinner-table is incomplete without potatoes, so no Burmese rice dish is complete without napee.

Heavy Election Expenses.

English election "expenses" are very high. But in other years they were higher. In Yorkshire, in 1807 Lord Milton and Mr. Lascelles paid out $1,000,000, but Mr. Wilberforce beat them at an expense of only $175,000 to his friends. In four election in 1830 and 1833 Lord Londonderry spent $130,000 in Durham alone and did not win.

Not Much for Royal Blood.

It is the same old story in the palace or in the cottage. It is asserted that the failure of matrimonial negotiations between the young Prince Napoleon and the Princess Thyra, of Denmark, was caused primarily by money difficulties. All sorts of stories have been told about the wealth of the ex-Empress Eugenie, and her fortune has been alternately exaggerated or underestimated, as friends or foes have been discussing it. And now comes Le Figaro with all sorts of statistics on the subject, which it declares are trustworthy, and which a confiding public may accept or not as it likes. At any rate, according to it, the young Prince is by no means rich, possessing only a revenue of about 40,000 francs, ($8,000) which comes from a little property situated at Vincenti, near Goritz, in Illyria, which was left him by Princess Bacciochi. Of course this is not near enough for a prince to marry on, and the Court of Copenhagen, when the question of settle was broached, turned up its nose at such a penniless youth. So the ex-Empress, like a good mother, has come to her son's aid. Her income, says Le Figaro, is in the neighborhood of 450,000 francs a year, and two-thirds of this she is going to turn over to him. It is not a great deal—$60,000.

Boot Flirtation.

The bankerchief and glove flirtations have done good service in their way, but they are only for the use of lovers and young people. For some time there has been a great want of something of the kind to fit tramps. A fertile brained genius in this city has got up a boot flirtation, intended especially for the use of those who are pestered by tramps. It runs something like this:

One step forward—Tramp beware.

Two steps forward—Cut your story short.

Right foot lifted a few inches from the ground—I have nothing for you.

Right foot extended backward—Get outside the gate.

Right foot brought swiftly forward and planted firmly under coat tail of tramp—Leave the premises instantly, and advise all your friends to steer clear of this house.

It may be well to state that this flirtation cannot be carried out with success unless the tramp is much smaller than you are. In following the directions above given it should be borne in mind that the paper is in no way responsible for any damages.

The Work of Congress.

Washington Star.

The second session of the Forty-fifth Congress is not expected to do much more than pass the necessary appropriation bills. Next week the appropriation committee will meet, and half of the appropriation bills will be ready by the 2d of December, to be reported to the House. The more important features of legislation liable to evoke discussion are the reports of the joint committee on the revision of the U. S. army; the report of Mr. Hewitt's committee on the depression of labor, and the report of the joint committee on the question of the transfer of the Indian bureau to the War department.

Vanderbilt's Remains Watched.

Since the gholus stole A. T. Stewart's remains a strict watch is kept over the vault in which the body of Commodore Vanderbilt reposes. The vault is believed to be secure. There are two iron doors to it through which a person must pass and these doors are secured by heavy bolts, locks and chains. William H. Vanderbilt has had the coffin in which the remains of the Commodore are inclosed walled in with mason work.

The Value of Silver.

From Report of Director of the Mint.

It will, of course, be readily understood that, as long as the supply of silver is in excess of the demand, there can be no permanent rise in value. An increased demand of any magnitude can only arise for India and China, or in the event of the resumption of the coinage of legal-tender silver coins by France, Belgium, and the Netherland. While this complicated, uncertain, and unsatisfactory condition of affairs with the relative value of gold and silver continues, it will require that the course to be pursued by the United States.

How tender-hearted are Connecticut jurors. The perpetrators of two of the most fearful crimes in the history of the State have escaped their just punishment because the juries "couldn't vote to hang a woman." DAILY NEWS

FRIDAY, ... NOVEMBER, 15, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

A cheering sign of the times is the prominence given to agricultural matters, which now usurp the attention of the public to the exclusion of other ideas. The local fairs greatly increased in number this season, are doing a good work and an interest not before manifested in their conduct is shown.

The New York World has recently opened an employment bureau which turns out to be a decided success. In the three weeks since it began operations, 1,645 applications have been received for places, and 561 of the number obtained suitable employment. This is practical philanthropy, if not strictly journalism.

The recent election in Missouri resulted in the defeat of the proposed amendment to the constitution, making the payment of a poll tax of not less than $1 a qualification of voters. The majority against it in the city of St. Louis alone was over 16,000. Evidently the temper of the American people is not favorable to restriction of the suffrage in any form.

The corn crop at the West is represented as being rapidly prepared for market, the difficulties of harvesting and drying being much less than last year, when the farmers were compelled to wait until the excessive rains were over before they could haul their crops from the fields. The estimate of this year's crop, which was placed at 1,300,000,000 bushels, is now deemed to be rather under the actual figures.

Raleigh, though now so prosperous, has unlimited possibilities in the future before her. The need most felt is the one so often brought before the public, of the establishment of cotton or other factories. Should one of these be built, its quick and sure success would lead to the erection of others. There are abundant of water-power, good situations, plenty of capital, and, last but not least, the energy. This latter requisite lies dormant now, and will it ever be awakened? Atlanta, Georgia, is an instance of what success an inland city may attain, by the use of energy and capital. Let at least one mill be started and our own cotton be manufactured by our people.

The sanctity of the grave, which is supposed to be invialate, is now invaded. The horrible story of the robbery of the Stewart tomb, with its ghastly terror of detail, has been the leading sensation. But even it must now take a less prominent place in the public mind. The story of the wholesale invasion of the grave which comes from Ohio, shows that this unnatural crime bids fair to become a common one. Not for purposes of dissection are these burial places rifled of their loathsome dead, but for reward. It is a sad commentary upon human wickedness that in this beautiful nineteenth century men should have fallen so low as to perpetrate crimes whose commission would have disgraced the dark ages.

The Northern press and Northern politicians have lately opened a new topic for discussion—the increased representation given the South when the negroes were given the ballot. The most bigoted Republicans are now lamenting what they style their precipitate action in giving the South the increase in power, and suggest slyly, just to see how the idea will take, that the South may get rid of negro suffrage with Republican assistance, if it is willing to sacrifice some little of its representation in Congress. While it is true that the Southern States owe an increase in Congress men to the act enfranchising the negro the Northern papers have fallen into a gross error in the calculation of this increase.

It is believed in Washington, that touching the local regulation of the fisheries by the Canadian authorities, Lord Salisbury's reply to Mr. Evarts' dispatches is satisfactory, and that the British Government will carry out the treaty of Washington in a manner in which this country will have no reason to complain. Whether this interpretation of the English Government's position is correct or not, cannot be positively known until the text of the dispatch is given to the public, which it probably will be in short time. Should it prove to be true that the British Government practically accepts the view advocated by Mr. Evarts, there will be occasion for some mortification in London newspaper offices, where the attitude of the United States Government has been almost uniformly misunderstood and misrepresented.

One of the most substantial farmers in this section states that the cotton crop in this portion of the State will not be nearly so great as estimated. He is led to so assert by the fact that many farmers of judgment who estimated the crop early in the season, now find, since it has been in greater part picked, that the product is about one-fourth less than was anticipated. Whether these observations be correct, we know not, but the matter is one of importance. The cotton produced in this belt of the State has in late years been in particular demand North, a number of factories finding the staple to be superior. Several mills have made nearly all their purchases of supplies from cotton grown in Wake and bordering counties. The particular excellence of staple and care in ginning have had much to do with the growth of Raleigh as a market, and kept its cotton at sometimes rather a fancy price among fastidious buyers.

The Philadelphia Times does not believe in the results of some of the figuring that has been done in regard to the prospets of the next Presidential campaign. It says that on the asumption that "the general Republican tide of 1878 shall be repeated in 1880, and allowing California to be added to the Republican column, the electoral vote would divide as follows: Republican, 213; Democratic 155. All that is necessary to change the electoral majority from the Republican to the Democratic side will be the change of New York with its 35 electoral votes. Transferring New York to the Democratic side, the electoral vote would foot up—Democratic, 191; Republican, 178, giving the Democrats a majority of 13, with a Democratic Senate and House. The transfer of New York to the Democratic side in 1880 will be an easy task with the fate of a Presidential contest depending upon the vote of that State."

Speaking of the relative numbers of the two great parties in the next Congress, the Washington Star says: Of the twenty-five Senators whose terms expire on the third of March, seventeen are Republicans and eight are Democrats. Successors to seven of the retiring members have already been chosen; and the democrats have made a gain of three. They have held their own in Kentucky and Maryland and have elected successors to Sargent, of California, Matthews, of Ohio, and Mitchell, of Oregon. The republicans have retained the other two senatorships. Of the eighteen remaining States which will choose Senators, twelve are now represented by Republicans and six by Democrats. The latter party will hold five of those they now control and will lose Connecticut, where a Republican will succeed Senator Barnum. The Republicans will hold their own in eight States and will lose the seats now filled by Spencer, of Alabama, Dorsey, of Arkansas, Conover, of Florida, and Patterson, of South Carolina. Thus the Democrats have lost one seat they now control and have gained seven, representing an aggregate gain of six seats. As every vote thus added to the Democratic strength is also a decrease of one in the Republican roll, the six Senatorships whose political complexions have been changed are equivalent to a Democratic majority of twelve. But there is a Republican majority of two in the present Senate to overcome. In the next Senate, consequently, the Democratic majority will be ten, the vote standing Democrats forty-three, Republicans thirty-three.

MISCELLANEOUS.

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S
KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN.

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.
COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled
1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

FACTS.

EXAMINE any Green or Japan Tea, and you will find the color will rub off, and if you break a grain you will see inside the true color of the tea.

BISHOP MARVIN wrote from China; "You can get no respectable Chinaman to drink tea after it has been doctored for the Foreign Market."

UNITED STATES, The department of Agriculture at Washington, in a special Tea Report, says:
"The Chinese never drink tea dyed teas themselves, they are made for the foreign market."

APPLETONS CYCLOPEDIA, page, 600, says:
"Teas are subject to various adulterations, including the coloring to improve the looks of inferior kinds. The materials used are Prussian Blue, Gypsum and Indigo. There is but little un-colored green tea offered for sale.

MESSRS MARTIN GILLET & Co.; with a reputation of over half a century, and in close connection with the markets of China and Japan; Recognizing the truth of the above abuses, have lately introduced He-No Tea. It is selected from the choicest leaf, and is without the expensive coloring colloiding and fancy twisting usually put on teas shipped to America. In this way a fine pure tea like He-No can be sold at moderate price.

HE-NO is Tea in its natural condition, such as the Chinese themselves drink, and for the following good reasons, is sold only in original pound and half-pound packages. It is the most convenient and economical style of package.

It is weighed and packed where it can be done cheapest and best.

It can be easily identified by the consumer.

It keeps the Tea better.

It prevents Adulteration in America.

We are the sole agents for this TEA in Raleigh N. C., and ask our friends to give it a trial. And if not perfectly satisfactory we will CHEERFULLY take it back and refund the money.

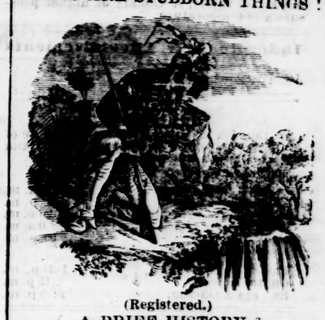
A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!



(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrotula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrotula. The doctors gave it up to die. The thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel he had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

T. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL,

Respectfully your friend,
MRS. S. L. BROWN.
Sept 26 1878,

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.
KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141.

A day or so past James Mangum, white, of Granville county, was before U. S. Commissioner Purnell, on a charge of peddling tobacco without license. He was lodged in jail. Yesterday he gave bail and was released.

Criminal Court.

This court adjourned soon after its opening yesterday, until 10 o'clock this morning. The advent of the circus had so demoralized witnesses, jurors and lawyers, that such a rest became necessary.

Abstracts of Taxes.

The State Auditor yesterday received the following abstracts of listed taxables:

Pitt county, by Alex. Blow, Register of Deeds:

General taxes,	$ 3.577 38
Special "	3,640.22

Blind Wiley Dead.

Wiley Lane, better known as "Blind Wiley," a venerable colored man, who for many years has tramped this city and the surrounding country, as a mendicant, is dead. He was regarded with some degree of awe by the juveniles and colored people, who thought that he was the oldest man living. He had a peculiar faculty of being able to swallow quantities of pennies and disgorge them at will.

A Prosperous Place.

Mr Heflin, proprietor of the Henderson Hotel, was in the city yesterday. Speaking of his town he said that it is building up more rapidly than any town in the State. A large number of private residences are under headway. In the early spring several new tobacco factories will be built. At present the demand for bright tobacco is brisk, but not a great deal is to be had.

Extending Its Line.

The Charlotte Democrat says: The Raleigh and Augusta Railroad contemplates the extension of its line from Hamlet to Charlotte. If so it is in consequence of the recent disagreement between it and the Carolina Central road, regarding the exchange of freights, which disagreement has resulted in the breaking up of the excellent and popular shipping route known as "The Seaboard Air Line."

Religious News.

The North Carolina Conference of the M. E. Church South will meet in annual session in Charlotte on the 27th inst. Bishop George F. Pierce, of Georgia, is to preside.

Rev. Dr. Wilson, of Greensboro, who has been quite sick for some time past, is now improving and hopes to be able to attend the session of the North Carolina Conference.

A Raleighite in the Ring.

Among the best performers in the Great Loudon Circus is Mr. William Gorman, who has won a wide reputation as a rider. Mr. Gorman is a son of Mr. Willian Gorman, a brother of Gen. John C. Gorman, who some years ago went from this city to Kentucky. A handsome, steady young fellow, he is a credit to the profession he so well represents.

Removed.

Mr. T. B. Loader, whose merits as a cutter and a fitter of garments are well known, has removed his establishment to the large front rooms over Tucker's store. In these he will enjoy peculiar advantages in respect to light and convenience. Mr. Loader is an artistic tailor, and does his work well. Those who wish tasteful and fitting clothes will read his new local advertisement, and give him a call.

Killed by a Fall.

On Saturday Mr. P. H. Johns, of St. Mary's township, was out gunning for squirrels. In company with him was a colored boy, some 18 years of age, who was in his employ. Soon after arriving in the woods, Mr. Johns shot a squirrel in the top of a large tree. In falling the game lodged in a crotch of the tree, some 40 feet above the ground. The negro climbed up after it, and just as he reached the fork of the tree, lost his hold and fell headlong. He struck the ground with great force, and the fall broke his skull, leg and arm, besides injuring him internally. He died Sunday morning.

The Circus.

After many days of expectant watching and waiting, the hearts of the people were yesterday made glad by the advent of the Great London Circus and Sangers Menagerie. At an early hour the trains bearing it arrived, and the vast expanse of canvas went up in Nash square, with magical swiftness. About 9 o'clock the procession was formed and began its march on the streets. Great crowds were assembled to witness the parade, all the streets by which it moved in its circuit being packed with people. The procession was universally admired, though not so large as some seen here. Conspicuous in the front were three heralds with bugles. After these came the tableau car, with an immense globe of the world. Next was the Tally Ho English coach, which is a model of beauty and style. It attracted more attention than anything in the procession. In these times, when coaching is the rage, the sight of the nobby vehicle was a treat. Another curiosity was an immense iron cage containing eight grave robbing hyænas, (not connected with the Stewart body-snatching) with their keeper sitting among them. The hyæna, by the way, is not the most pleasant companion in the world, either in an odorous or sociable sense, so not even the small boys envied the tamer. The procession was filled out with a fine array of dens, gorgeously painted wagons, and two bands, 5 elephants and several camels.

The performance in the afternoon began at 2 o'clock, and was attended by a crowd of about 2,000. One of the features was the wonderful riding of Mme Dockrill. In the evening performance the tent contained a crowd of over 4,000. During the day all was quiet, and everything passed off pleasantly. The circus was voted to be a very good one.

Marriage in Charlotte.

The Charlotte Observer of yesterday contained the following account of the marriage of a lady who has many relations and hosts of friends in this city: The First Presbyterian church was the scene, last evening, of the most brilliant marriage that has occurred in Charlotte for a long while past. The contracting parties were Mr. Frank L. Osborn and Miss Mary Dewey. The interior of the church had been adorned with charming decorations of flowers and evergreens, and the scene when the bridal party entered shortly after the hour fixed for the ceremony, was one of striking beauty. The organ thrilled under the touch of Prof. Bides, as the bridal party entered the church, the ushers, Messrs. R. G. Tregevant, A. L. Smith, W. C. Maxwell, F. B. McDowell, R. F. Stokes and J. L. Chambers, preceding the bridesmaids, who passed up the main aisle in couples as follows: Miss Bessie Dewey and Miss Ada Wriston; Miss Emma McDowell and Miss Maggie Morehead; Miss Annie M. Dewey and Miss Sallie Erwin; Miss Lelia Young and Miss Louise Young; Miss Isabel Irwin and Miss Adelaide Welch; Miss Annie Jones and Miss Annie Dewe; Miss Grace Dewey and Miss Addie Avery.

After these came the groom, bearing upon his arm the mother of the bride; following these the bride, leaning upon the arm of her uncle, Mr. F. H. Dewey. The young bride was arrayed in a satin dress of pure white, with long flowing veil, and each of the bridesmaids was dressed in white while the groom and ushers wore the conventional black. Rev. A. W. Miller, D. D., in eloquent sentences, and amid almost breathless silence, administered to the pair the solemn sacrament of marriage. From the church the bride and groom; bridesmaids and ushers and a few friends of the families proceeded to the residence of Mrs Dewey, where the evening was passed in social festivities.

The bride, recognized as one of the most beautiful, charming and cultured of the reigning belles of the city, and the groom a popular and intellectual young barrister, both will receive the congratulations of hundreds of friends in this city and elsewhere.

Greenest of the Green.

A pair of countrymen, with their attendant fair ones, were in the capitol square yesterday, when one of them observed the somewhat dusky statue of Washington, and asked the other what that figure of a nigger was set there for. The other replied that it was not a negro, but an image of George Washington, when to him the greenhorn replied that he recollected Washington, but the name was John, not George. Are we a civilized people? The occurrence above stated is an actual fact, being witnessed by a lady here.

Convicts.

Sheriff J. C. Barrett, has delivered to the Penitentiary authorities two colored convicts, both guilty of larceny and sentenced to five years imprisonment. Their names are Young Evans and Jesse Lawson.

The National Hotel.

By some means unknown, a report has been given circulation that this fine house would speedily be closed. Never was there a rumor more utterly unfounded. The hotel will continue to be, as it has been, first class in its accommodations and living. The traveling public are asked to test the truth of this, and will always receive a ready welcome. *

Our Buyer.

It is very difficult for a merchant to make a trip to New York, buy goods cheap, and return immediately. For this reason Law's China and Silverware establishment (Raleigh and Charlotte, N. Quite a Mistake.

We said in yesterday's paper that "all the grocers in town say their customers will not use any other Baking Powder but Jones' Unrivalled." This was quite a mistake, as the Patapsco Baking Powder has a great reputation here, and nearly every grocer in town keeps it in stock, and the demand for it is daily increasing. Something New.

Lumsden has a grocers' scoop that is made of extra heavy tin and has an iron handle to it, with a sharp point for breaking and loosening sugar, etc., when it becomes hard in the barrel. The handle itself weighs 17 ounces and is tinned over, soldered and riveted to the scoop so there is no possible way of breaking it. Merchants and grocers everywhere would do well to see this scoop before buying another. Also full stock of house furnishing goods of all kinds at Lumsdens.

Controversy among the first-class hotels of New York shows that the service is constantly changing from one first-class hotel to the other, and the other, and the bills of fare show the same variety of dishes.
